

# IDAHO IMMUNIZATION PROGRAM (IIP) VACCINE ELIGIBILITY SCREENING GUIDE

The IIP combines federally-funded vaccines (VFC) with state-funded vaccines and ships these to enrolled providers for use in eligible children under the age of 19 years. The guide below will help your practice determine whether or not vaccine supplied by the IIP may be used during a patient visit.

## Questions (sequential; follow in order)

1. *Is the child covered by Medicaid from any state?* If YES, then go to **A**. If NO, then go to **2**.
2. *Is the child an American Indian or Alaska Native from any state?* If YES, then go to **A**. If NO, then go to **3**.
3. *Does the child have health insurance?* If YES, then go to **4**. If NO, then go to **A**.
4. *Does the child reside in Idaho or Washington?* If YES, then go to **B**. If NO, then go to **5**.
5. *Does the child's health insurance cover immunizations?* If YES, then go to **C**. If NO, then go to **D**.

## Answers

- A. VFC-eligible. Use the vaccine supplied by the IIP.**
- B. Ineligible for VFC, but eligible for state-supplied. Use the vaccine supplied by the IIP.**
- C. Not eligible for VFC or State-supplied vaccine. Use privately purchased vaccine, do not use vaccine supplied by the IIP.**
- D. VFC-eligible at a FQHC, RHC, or PHD only.**
  - Use vaccine supplied by the IIP only if your office is an FQHC, RHC, or PHD.
    - The VFC Eligibility in IRIS will be *Underinsured FQHC/RHC*
  - If your office is not an FQHC, RHC, or PHD, then privately purchased vaccine may be used only if the parent or guardian has been told that the vaccine would be available for free at an FQHC, RHC, or PHD.

### Definitions:

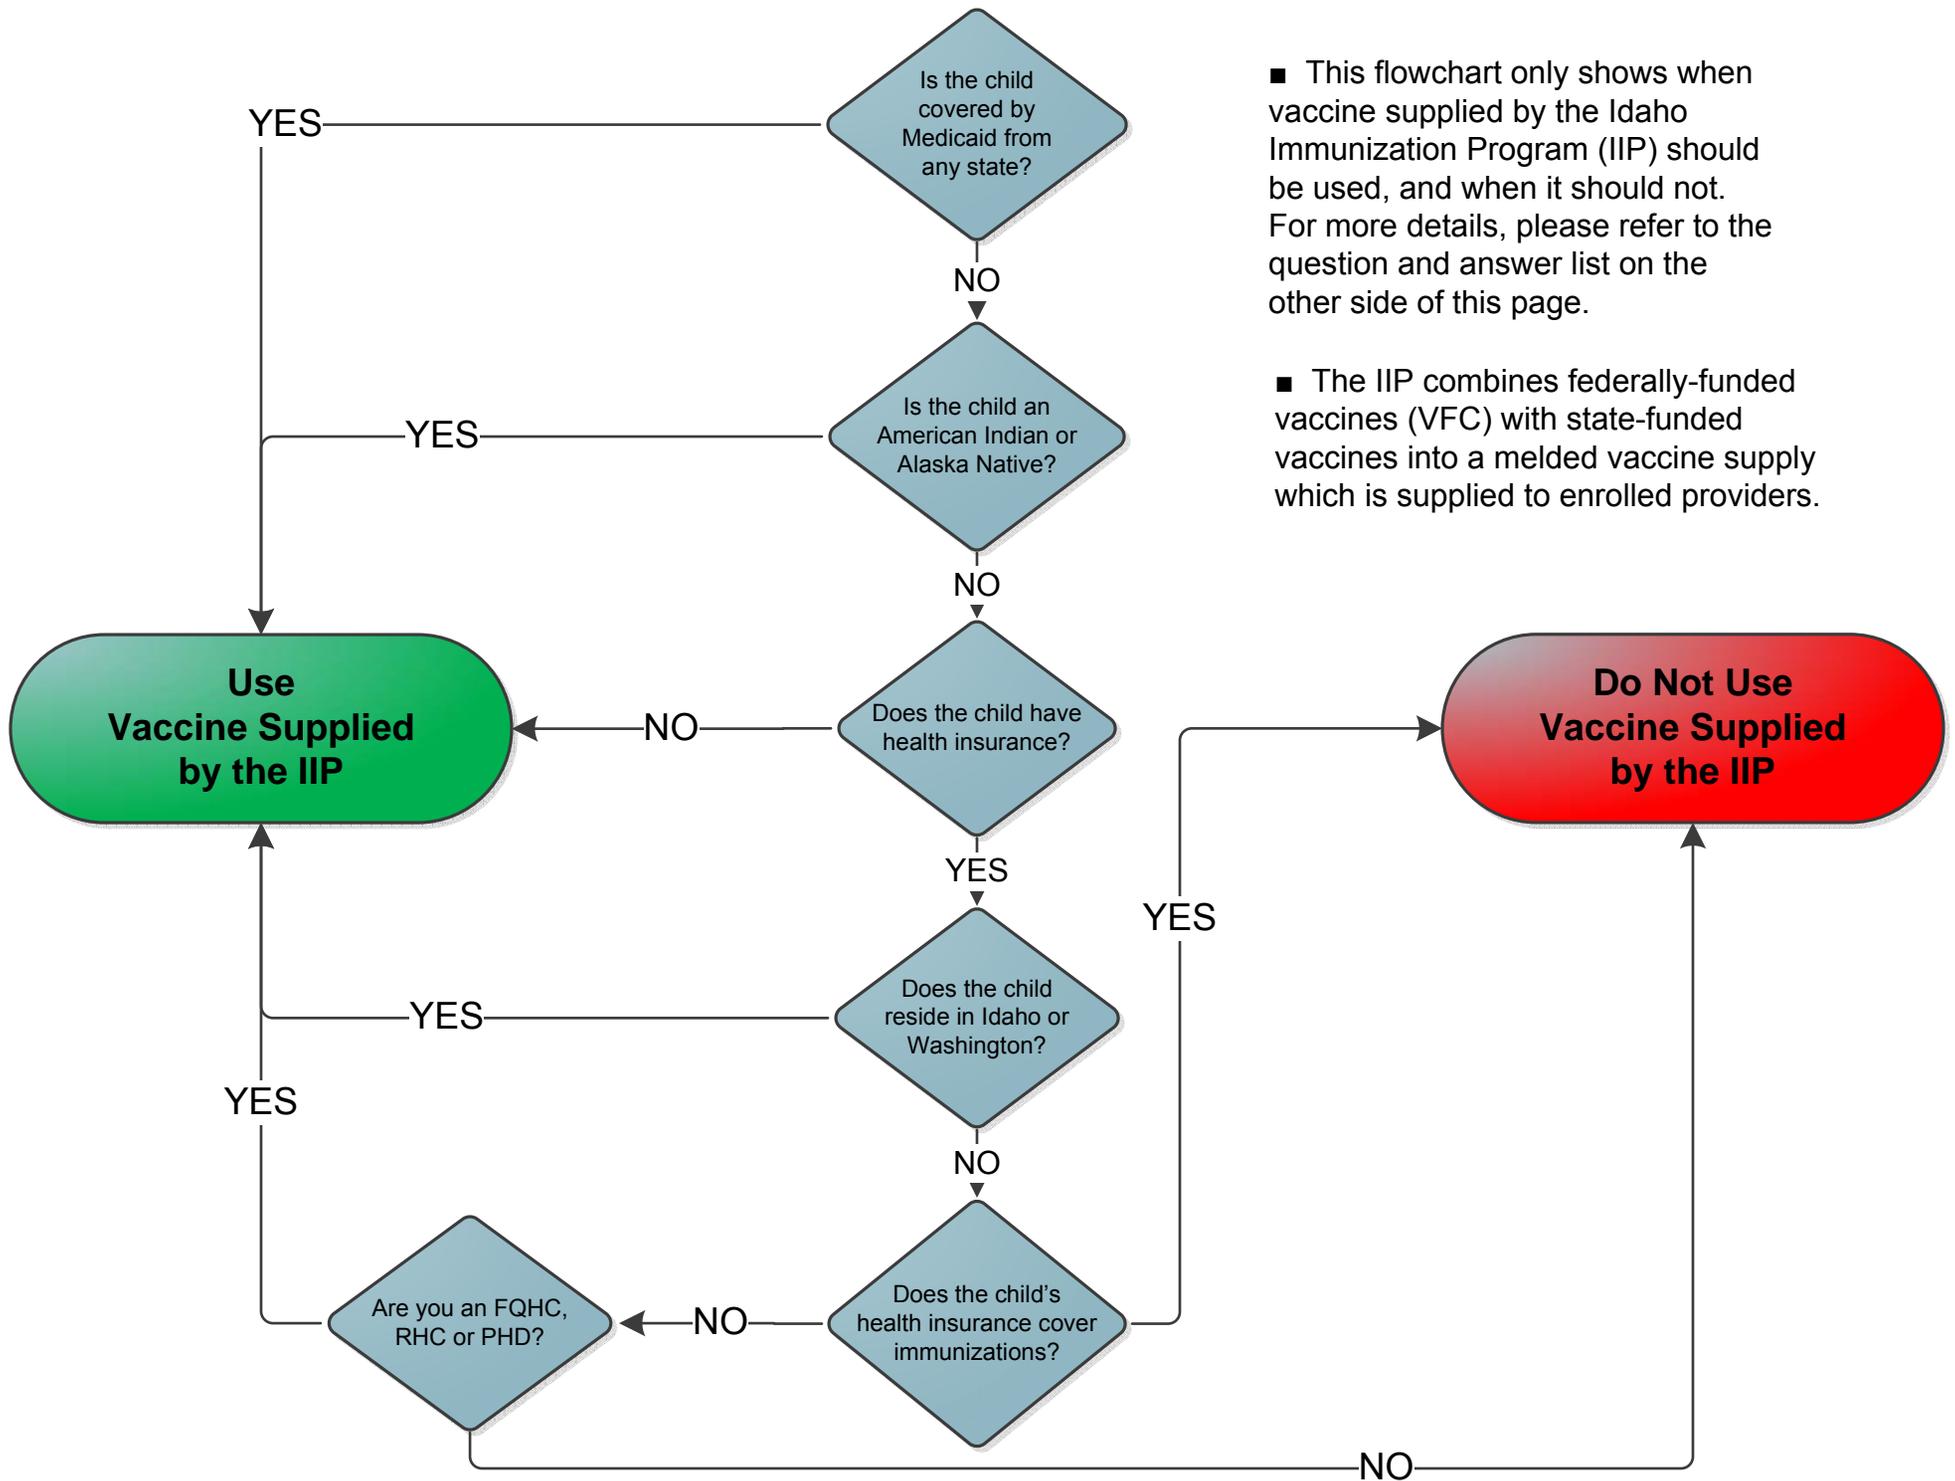

VFC = Vaccines for Children Program

FQHC = Federally Qualified Health Center

RHC = Rural Health Clinic

PHD = Public Health District

■ This flowchart only shows when vaccine supplied by the Idaho Immunization Program (IIP) should be used, and when it should not. For more details, please refer to the question and answer list on the other side of this page.

■ The IIP combines federally-funded vaccines (VFC) with state-funded vaccines into a melded vaccine supply which is supplied to enrolled providers.
