2. Percent out-of-wedlock live births and percent low birthweight live births are based on records with known data for marital status and birthweight, respectively.

3. The rates by cause of death are expressed as the number of deaths per 100,000 population. NA: not applicable.

4. Divorces by county will not total because tribal court divorces are not included in county totals.

See definitions and formulas for definitions of events.

The reader is cautioned that many of the rates depicted in this publication are based on small numbers (< 20 events); caution must be exercised when attempting to draw conclusions from small data bases.
