**Idaho Department of Health and Welfare
Division of Medicaid – Adult Developmental Disability Services Bureau Provider List (5-1-2013)**

This list sorts DD Service Providers by “Provider Type”. Find the “Provider Type” you are interested in and then reference the Region Served column to determine whether this provider type is available in your Region. The Idaho Map on page 1 will help you identify counties in each of the 7 regions in Idaho.

Provider Type Definitions:

Behavior Consultation/Crisis Management are services which provide direct consultation and clinical evaluation of participants who are currently experiencing or may be expected to experience, a psychological, behavioral, or emotional crisis. This service may provide training and staff development related to the needs of a participant. These services also provide emergency back-up involving the direct support of the participant in crisis. (IDAPA 16.03.10.703.11)

Chore services which are heavy household maintenance and minor home repairs necessary to maintain the functional use of the home and to provide a clean, sanitary and safe environment. Chore activities include washing windows; moving heavy furniture and shoveling snow to provide safe access inside and outside the home; chopping wood when wood is the participant’s primary source of heat; and tacking down loose rugs and flooring. These services are only available when neither the participant, nor anyone else in the household is capable of performing or financially providing for them, and where no other relative, caretaker, landlord, community volunteer/agency or third party payer is capable of or responsible for their provision. In the case of rental property, the responsibility of the landlord, pursuant to the lease agreement, will be examined prior to any authorization of service. Chore services are limited to the services provided in a home rented or owned by the participant. (16.03.10.703.02)

Supported employment which is competitive work in integrated work settings for individuals with the most severe disabilities for whom competitive employment has not traditionally occurred; or for whom competitive employment has been interrupted or intermittent as a result of a severe disability; and who, because of the nature and severity of their disability, need intensive supported employment services or extended services in order to perform such work. (3-19-07) a. Supported employment services rendered under the waiver are not available under a program funded by either the Rehabilitation Act of 1973, as amended, or the Individuals with Disabilities Education Act (IDEA). Documentation will be maintained in the file of each individual receiving this service verifying that the service is not otherwise available or funded under the Rehabilitation Act of 1973 as amended, or IDEA. (3-19-07) b. Federal Financial Participation (FFP) will not be claimed for incentive payments, subsidies, or unrelated vocational training expenses such as the following: incentive payments made to an employer of waiver participants to encourage or subsidize employers' participation in a supported employment program; payments that are passed through to beneficiaries of supported employment programs; or payments for vocational training that is not directly related to a waiver participant's supported employment program. (16.03.10.703.04)

Home Delivered Meals which are designed to promote adequate wavier participant nutrition through the provision and home delivery of one (1) to two (2) meals per day. Home delivered meals are limited to participants who rent or own their own home, who are alone for significant parts of the day and have no regular caretaker for extended periods of time. (16.03.10.703.09)

Idaho Department of Health and Welfare
Division of Medicaid – Adult Developmental Disability Services Bureau Provider List (5-1-2013)

Non-Medical Transportation services are services offered in order to enable waiver participants to gain access to waiver and other community services and resources required by the plan of service. This service is offered in addition to medical transportation required under 42 CFR 440.431.53 and transportation services offered under the State Plan, defined at 42 CFR 440.170(a), and must not replace them. Whenever possible, family, neighbors, friends, or community agencies which can provide this service without charge or public transit providers will be utilized. (16.03.10.703.05)

Personal Emergency Response Systems (PERS) may be provided to monitor waiver participant safety or provide access to emergency crisis intervention for emotional, medical or environmental emergencies through the provision of communication connection systems. PERS are limited to participants who rent or own their home, who are alone for significant parts of the day, have no regular caretaker for extended periods of time and who would otherwise require extensive routine supervision. (16.03.10.703.08)

Specialized medical equipment and supplies which include devices, controls, or appliances, specified in the plan of service which enable participants to increase their abilities to perform activities of daily living, or to perceive, control, or communicate with the environment in which they live. They also include items necessary for life support, ancillary supplies and equipment necessary to the proper functioning of such items, and durable and non-durable medical equipment not available under the Medicaid State Plan. Items reimbursed with waiver funds must be in addition to any medical equipment and supplies furnished under the State Plan and must exclude those items which are not of direct medical or remedial benefit to the participant. All items must meet applicable standards of manufacture, design and installation. (16.03.10.703.07)

Respite care services are those services provided on a short term basis because of the absence of persons normally providing non-paid care. Respite care services provided under this waiver will not include room and board payments. Respite care services are limited to participants who reside with non-paid caregivers. (16.03.10.703.03)

Nursing services are those intermittent nursing services or private duty nursing services which provide individual and continuous care listed in the plan of service which are within the scope of the Nurse Practice Act and are provided by a licensed professional (RN) nurse or licensed practical nurse (LPN) under the supervision of an RN, licensed to practice in Idaho. (16.03.10.703.10)

Service coordination is a case management activity which assists individuals eligible for Medicaid in gaining and coordinating access to necessary care and services appropriate to the needs of the individual. Service coordination is a brokerage model of case management.
