

Agency Administrator access to Idaho Web-enabled Information System for EMS (IWISE)

Welcome to IWISE! The Bureau is happy to announce the implementation of Agency Administrator access to IWISE. Any agency administrator listed by the agency can access IWISE and has rights to view and edit information (chief, training officer, LZO, infection control officer, etc.). This document will assist the agency administrator is setting up an IWISE account.

***If you already have a provider logon for IWISE, you can either create a separate user name and log in for Admin access OR contact Jim Adair adairj@dhw.idaho.gov at the Bureau of EMS and Preparedness to add the additional role to your current account.

Please use Internet Explorer. If you have IE10 or higher, please use the compatibility mode.

Create your account at www.idahowise.org by clicking on the "Create Account" link.

Welcome !

I-WISE is your portal for statistical and data information specific to EMS in Idaho. We support, regulate and enhance the Emergency Medical Services system to improve the health and safety of Idahoans.

- License ambulance and non transport EMS services
- License EMS Personnel
- Operate the statewide EMS communications center
- Provide technical assistance and grants to community EMS agencies
- Evaluate EMS system performance
