ABOUT OUR HOSPITALS

Our state hospitals collaborate with patients and their families, as applicable, and the referring Regional Mental Health Centers to develop goals for hospitalization and arrange follow-up care after inpatient stays. Our hospitalization is intended to be of short to intermediate duration with the objective of stabilizing presenting symptoms and returning the patient to community living in the shortest reasonable period of time.

Treatment is individualized and delivered within interdisciplinary teams. We use the Recovery Model in treatment and promote alignment with the patient in developing a self-directed care plan to assist in working towards their own recovery goals.

STATE HOSPITAL NORTH

SHN is located in the small town of Orofino along the Lewis and Clark Trail. At only 1,000 feet elevation, the mild weather location offers year-round recreational opportunities. Good schools and low cost-of-living make this close-knit community a great place to live.

SHN is a 55-bed psychiatric hospital that provides treatment for adults in psychiatric crisis. You will enjoy working with our friendly, dedicated and professional hospital team.
