State Hospital South

- ❖ State Hospital South is a southeast Idaho psychiatric facility providing mental health services for all seven regions in Idaho.
- ❖ We are one of two state psychiatric hospitals in Idaho and is administered by the Division of Behavioral Health within the Idaho Department of Health and Welfare.
- ❖ State Hospital South provides state-of-the-art programs in a modern 135 adult/adolescent Joint Commission Accredited psychiatric facility.
- ❖ State Hospital South is dedicated to the effective treatment and recovery of Idaho's most severe mentally ill citizens to enable their return to community living.
- ❖ We are located in Blackfoot, Idaho.

State Hospital South

Our hospital is comprised of an adolescent unit, three adult units and a nursing home facility.

Adolescent Unit - Is a 16-bed unit that provides inpatient psychiatric services to adolescents aged 11 through 17.

Adult Units - State Hospital South has three 30-bed treatment units that provide psychiatric services to individuals ages 18 and older. Patients can be admitted to any of the three units. These units provide assessment, medication stabilization, individual and group therapy, recreational therapy, and nursing care services.

Syringa Chalet Nursing Facility – A 29-bed psychiatric care nursing home that provides short-term and long-term care for adults over the age of 65 with mental illness and who require skilled nursing care.
